Babylicious, the hip urban local line of baby products is launching a fresh new bedding and accessories line, the Real Life Collection.

The two lines in Real Life are Bloom and Zoo and offer a fun and funky alternative to the traditional baby room décor. Bloom features a giant gerber daisy in bright fuschia, while Zoo is a whimsically modern take on the animal print with

a puppy, giraffe, penguin and more gracing a neutral background or in

multi-coloured polka dots. www.babylicious.ca
